Summary

As a web developer, developing applications that are easy for users to utilize is a top priority. Recently earned a certificate in full stack development from the UCLA Extension Program, where I developed skills in JavaScript, CSS, Node, Object Oriented Programming/Object Relational Mapping, React.js, MySql and responsive web design.The projects enhanced our new skills to this newly found passion, web developing. With each project, the goal was to first make it function, then designing an engaging layout for viewers to enjoy was essential to our work. The teams that I worked with were crucial to the process of developing these applications through organization and communication. With these skills, we were able to create a functioning app using the MVC paradigm, which consisted of creating a back-end and front-end for an application that let users draw and publish their drawings in the web app.

TECHNICAL SKILLS

Languages: JavaScript ES6+, CSS3, HTML5, SQL, NoSQL, GraphQL
Applications: GitHub, MongoDB, MySQL
Tools: Express, React, Node, Handlebars, JQuery, Bootstrap, PWA, Semantics UI, Firebase, Stripe

Projects

Budget Tracker | https://github.com/eramos3/Budget-Tracker | Link [https://bdget-traker.herokuapp.com/]

- **Summary**: Web app that records your expenses/income
- **Role:** Creating Front-End and Back-End functionality
- **Tools:** IndexDB, MongoDB, Service Workers

Book Search Engine ||https://github.com/eramos3/book-search-engine | Link [https://arcane-brushlands-36937.herokuapp.com/]

- **Summary**: Google book search engine
- **Role:** Creating Front-End and Back-End functionality
- **Tools:** GraphQL, Server-Side API's, Local Storage, React, Bcrypt, Mongoose, Express

Meural| https://github.com/stepheff1994/second-group-project | Link [https://meural.herokuapp.com/ l]

- **Summary**: Interactive virtual art social app that taps into the canvas feature to allow users to draw and share.
- **Role:** Creating Back-End Functionality and took part in designing the UI
- **Tools:** Node Js, Express, mySQL, Sequelize ORM, Handlebars Js.

Experience

Account Manager   **2016-Present**
    ENI-JR286   **Torrance,CA**
As an account manager, the responsibilities included analyzing sales data to provide reports on how each retail store performs, while also providing excellent customer service to each account.
Key Accomplishments:

- Developed an excel template for the department in order to minimize work time and capture data to generate a report.
- Was part of our company's first online store, my input to this project was crucial because my role allowed me to see the customers point of view, which helped the design part of the website appeal to the consumer. This allowed our website to produce about 2.3 million dollars a year.
- Earned my manager's trust by completing specific assignments on time thus leveling up within my department for the past four years.

Education

Certificate, Full Stack Web Development – UCLA Extension   Los Angeles, CA
A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handlebars.js & ReactJS.

Bachelor of Arts, Spanish — University of California Santa Barbara   Santa Barbara, CA
